

# ACCURA CALIBRATION

## CAPABILITIES LIST

Email: [hello@accuracal.com](mailto:hello@accuracal.com) Office: 972-278-7878

2834 W. Kingsley Rd., Garland, TX 75041

Service-Disabled Veteran-Owned Business, ISO 9001

|                                 |                               |                                  |                               |                              |                                  |
|---------------------------------|-------------------------------|----------------------------------|-------------------------------|------------------------------|----------------------------------|
| #REF!                           | Crimp Tools / Crimpers        | Go/No Go Gages (Plain)           | Noise Generators              | RF Power Amplifier           | Thermocouple Module              |
| 1-2-3 Blocks                    | Current Clamps                | Ground Bond Testers              | Noise Source                  | RF Power Meters              | Thermocouples                    |
| AC Outlet Analyzers             | Current Coil                  | Hardness Testers                 | NTSC Generators               | RF Probe (Adapter & Cable )  | Thermocouples                    |
| AC Standards                    | Current Probe                 | Harmonics Analyzer               | Ohm Step                      | Ring Gages                   | Thermo-Hygrometer                |
| AC/DC Detectors                 | Current Source                | Height Gage                      | Ohm-Rangers                   | Riser Block                  | Thermometer                      |
| AC/DC Generators                | Curve Tracers                 | Height Micrometer                | Open / Shorts                 | R-L Standards                | Thickness Gages / Meters         |
| AC/DC Power Supplies            | Data Acquisition Unit / DAQs  | High Voltage Attenuator          | Optical Comparators           | RLC Meters                   | Timers                           |
| Active Fet Probe                | Data Loggers                  | High Voltage Probes              | Optical Meters                | RTD's                        | Torque Drivers                   |
| Active Probe                    | DC Load                       | Hipot / Hypot / Hi-Pot Testers   | Optical Micrometers           | Rubidium Freq. Standard      | Torque Meters                    |
| Air Flow Meters                 | DC Sources                    | Hole / Bore Gages                | Oscilloscope Calibrator       | Rulers                       | Torque Screwdrivers              |
| AM/FM Test Sources              | Decade Capacitors             | Hot Wire Anemometers             | Oscilloscopes / Oscopes       | Scales                       | Torque Testers                   |
| Amplifiers                      | Decade Inductors              | Hydrometers                      | Oven Conveyors                | Scales, Hanging              | Torque Transducers               |
| Anemometers                     | Decade Resistors              | Hygro-Thermometer Pens           | Ovens                         | Scales, Spring               | Torque Watches                   |
| Audio Analyzer                  | Depth Gages                   | Hypot Testers                    | PAL/NTSC Signal Generator     | Scope Blocks                 | Torque Wheels                    |
| Banding Tool                    | Depth Micrometers             | ID Micrometers                   | Panel Meters                  | Scope Meters                 | Torque Wrenches                  |
| Battery Analyzer                | Detector Heads                | IFRs                             | Peak Power Meters             | Scope Plates                 | Tracker Systems                  |
| Battery Charger                 | Dial Indicators               | Impedance Analyzer/Meters        | Pedestal Generators           | Screw Pitch Gages            | Tranformer Ratiometer            |
| Battery Charger Analyzer        | Differential Probes           | Impedance/Gain Phase Analyzer    | pH Meters                     | Screwdrivers                 | Transconductance Amp             |
| Battery Charger Simulators      | Digital Analyzer Voltmeters   | Inductance Analyzer              | Phase Angle Voltmeters        | Sensor Module                | Transducers                      |
| BatteryMinder                   | Digital Transmission Analyzer | Insulation Gages                 | Phase Noise Interfaces        | Service Monitors             | Transient Pulse Generator        |
| Belt Tension Meters             | Digital Turbine Temp          | Ionizers                         | Phase Shift Network           | Setting Gage                 | Transmission Impairment Test Set |
| Blackbody & Controller          | Digitape                      | IR Thermometers / Guns           | Phase Standard                | Shims                        | Transmission Test Set            |
| Bonding Meter                   | Direct Volts Calibrator       | Kilivolts Meters                 | Photometer                    | Shunts                       | Transponder                      |
| Bore Gage                       | DLRO Resistance               | LCR Meters                       | PicoScope                     | Signal Generators            | Tunable BP Filter                |
| Cable Length Meter              | DMM                           | Leak Testers                     | Pin Gages                     | Soldering Fountains          | Turns Ratio Testers              |
| Cable Tensionmeter              | Down Converters               | Leakage Tester                   | Platinum Resistance Probe     | Soldering Irons              | Ultrasonic Baths / Frequencies   |
| Cable Testers                   | Dry Block Tester              | Levels                           | Power Analyzers               | Sound Level Meters           | Universal Counter                |
| Calibration Fixtures            | Dry Wells                     | LISN's                           | Power Limiters                | Source Measuring Units       | Universal Sweepers               |
| Calibrators                     | Durometer                     | Load Cells & Tranducers          | Power Meters                  | Source Meters                | Vacuum Gages                     |
| Calipers                        | DVM                           | Load Plug-In                     | Power Quality Analyzers       | S-Parameter Test Sets        | V-A-W Meters                     |
| Cap & Dissipation Factor Tester | Earth Ground Clamp            | Logic Analysis Systems           | Power Reflection Meter        | Spectrum Analyzer            | Vectorscopes                     |
| Capacitance Meter               | Eddy Current Thickness Gages  | Logic Analyzers                  | Power Resistor                | Spectrum Analyzer Mainframes | Video Generators                 |
| Capacitance Substituter         | Electronic Load               | Loop Tester                      | Power Sensor                  | Springs                      | Video Monitor                    |
| Carrier Noise Test Set          | Elements                      | Low Resistance Ohmmeter          | Power Source                  | Squares                      | Video Test Generator             |
| Chamfer Gages                   | ESD Monitors/Tester W/D, F/G  | Magnehelic Gages                 | Power Splitter                | Standard Capacitors          | Viscosity                        |
| Chart Recorders                 | Fault Locator/Tester          | Manometers                       | Power Supply                  | Static Field Meter           | Voltage Detector                 |
| Cirris                          | Fiber Optic Power Meters      | Measurement Receiver             | Pressure Calibrators          | Static Sensors               | Voltage Divider                  |
| Clamp Meters                    | Filters                       | Mego-Ohmmeters                   | Pressure Gages                | Step Attenuators             | Voltmeter                        |
| Clinometer                      | Force Gages                   | Microcontroller                  | Pressure Transducers          | Stopwatches                  | Volt-ohm-milliammeter            |
| Coating Thickness Gages         | Freezers                      | Micrometers & Rods (OD/ID)       | Pressure/Vacuum Modules       | Surface Resistivity Kits     | V-O-Ms                           |
| Combination Square              | Frequency Counters            | Micro-Ohmmeters                  | Profilers                     | Surface Roughness Standards  | VXI Technology                   |
| Communication Service Monitors  | Fuel Quantity Test Set        | Microphones                      | Programmers                   | Sweep Generator              | Water Activity Meters            |
| Communication Test Sets         | Function Generator            | Milliohmmeters                   | Protractors including Bevel   | Sweep Oscillator             | Wattmeters                       |
| Compound Gages                  | Gage Blocks                   | Modulation Analyzer              | PRT                           | Synchro/Resolvers            | Waveform Generators              |
| Conductivity Meters             | Gas Detector                  | Modulation Meters                | Pulse Generator               | Tachometer                   | Waveform Monitor                 |
| Counters                        | Gas Strut Servicers           | Multifunction Module             | Pulse Welders                 | Tape Measures                | Waveform Synthesizer             |
| Countersink Gages               | Gaussmeters                   | Multifunction Synthesizer        | Puncture/Insulation Tester    | T-Couple Module              | Work Station Monitors            |
| Crimp Height Micrometer         | Gloss Meters                  | Multimeters                      | Radiating Loop & Loop Sensor  | Tek Vertical Plug-Ins        | Wrist Strap & Dual Heel Tester   |
|                                 |                               | Multiplex                        | Range Calibrators             | Tektronix Plug-Ins           | Wrist Strap Testers              |
|                                 |                               | Multiscopes                      | Ratio Transformer             | Temperature Gages            | Wrist/Foot Strap Testers         |
|                                 |                               | National Instruments Tools       | Reference Attenuators         | Temperature/Humidity Meters  | Zero Ohm Adaptor                 |
|                                 |                               | Network Analyzers                | Resistance Meters             | Tensile Testers              | Zoom Magnifiers                  |
|                                 |                               | NHR Tester                       | Reticle Cal Stage Micrometers | Test Pattern Generators      | <b>...AND MORE!</b>              |
|                                 |                               | Noise Figure Meter / Calibrators | RF Generators                 | Thermocouple Calibrators     |                                  |

**Send us your equipment list! Our prices typically beat the competition 10-15% or more. Online Certificates available at [www.AccuraCal.com](http://www.AccuraCal.com). Call us at 972-278-7878.**
